

September 25, 2019

To the Mexican Government, Multinational Corporations, Tourist Industry, and Mennonite Leadership,

We write in support of the Mayan activists in the Yucatán who are opposing the destruction wrought by Tren Maya, planned urbanization of the Yucatán, intensive pig farming, and large solar farms. These projects threaten to destroy Mayan lands and sacred sites and displace Mayan people from their ancestral homes. The large, industrial pig farms are poisoning the cenotes. Further, all of the aforementioned projects damage complex ecosystems and are threatening the wellbeing of the planet.

We sign below in support of the resistance efforts of Mayan activists including Pedro Uc Be and the people with whom he is working in coalition. We implore you to halt further destruction of the forest and remediate negative environmental impacts. We implore you to make equitable community benefits for Mayan people and stewardship of the environment central to all future planning in the Yucatán.

Sincerely,  
Students and Faculty of City College of San Francisco<sup>1</sup>
